HYDROPLANE  
WORLD  
CHAMPION

# Miss Budweiser.

## FAST ELECTRIC UNLIMITED HYDROPLANE

Twin motors, twin battery packs and surface drive for unbelievable speed and action. The MRP Miss Budweiser streaks across the water leaving a long rooster tail behind. Dancing through the corner, hanging on the turn fin, this is one fast electric that will give you the feel and excitement of the full-sized Miss Budweiser. The turbine-like sound of the twin .05 electric motors and gear whine are guaranteed to speed up the heart of any boat racing fan. Careful attention to detail in molding and decals allows even beginners to build a boat in a few hours that they will be proud of for years.

**Budweiser**
