TEST
YOUR SKILL
AS A BOAT RACER**

Continuing the MRP tradition of fast electric boats, we proudly present the Bud Light Racing Team. This O.P.C. tunnel hull gives you all the thrill and excitement of the real boat.

The outboard motor, powered by twin six cell battery packs, gives you all the action you can handle and *more*. Your skill as a driver translates to your racing performance. Just ask any of the world class drivers who raced this boat at the Chicago Model Hobby Show International Race of Champions.
